# Konzentrationstest

## Kreis-Linien-Test

A 40x40 grid of symbols for a concentration test. Each row is numbered 1 to 40 on the left. Each column is numbered 1 to 40 at the bottom. The symbols are a circle with a diagonal line through it, a circle with a vertical line through it, a circle with a horizontal line through it, and a circle with a diagonal line through it rotated 90 degrees counter-clockwise. The symbols in each row are a sequence of these four types, with the order of symbols changing from row to row.
